

INFIBRANCHES COMPANY PROFILE

Taking Energy and financial access to last mile customers

Overview

Infibranches is one of the leading renewable energy solution providers in Nigeria. It was incorporated as a limited liability company incorporated on January 2019 in Nigeria with a regional presence across 34 states.

We are a technological design-thinking company merging fintech with renewable energy to solve everyday problems for last-mile consumers.

Infibranches delivers outstanding service and innovative products that are scalable, customisable and meet the demands of our customers and the standards of the regulatory bodies.

Based on our experience and strategic partnerships, we guarantee the best technical expertise and customer service throughout your relationship with us.

At infibranches, our goal is to improve the energy value chain and serve as the catalyst that will help transition millions of households to renewable energy, provide people with clean energy access, bring them closer to financial access, save them money, and protect our planet in the process.

Our Services

We provide a comprehensive range of energy services based on our clients' specific needs using our extensive knowledge of renewable energy implementation

ENERGY DISTRIBUTION (DEMAND PIPELINE AND CRM)

Improved Energy Access: Connected with 35+ solar home system (SHS) providers and Mini-Grids to ensure energy access in off-grid and underserved areas. We work with financiers to drive demand to all the SHS partners and verified installation partners in our portfolio. Our CRM helps with end to end automation of their operations

API TECHNOLOGY

Increased Reach and Accessibility: A single point of integration (SPOI) is a technology platform that enables partner businesses – including banks, tech companies, FIs, and other entities – to easily and seamlessly offer solar and energy products to their users via its API

PAYMENT SOLUTION

Financial Inclusion: Providing payment collection and access to the millions of underbanked and unbanked in both rural and peri-urban areas.

SOLAR DEPLOYMENT AND INSTALLATION

We provide best-in-class consultation, a customized solution and help you know the most affordable cost for switching to a cleaner energy. Our post-installation system maintenance services ensure optimum output and prolonged lifespan.

Delivers Value across the Stakeholders Chain: Maximum ROI to investors and increased earnings for agents and service providers.

Achievements

- One of the 50 most promising Climate Tech startups in Africa by Holon IQ
- 56,000+ solar end-customers served through PAYG and distribution networks.
- 40+ solar partners
