

**Company  
Profile**

**SAF-AGA**  
RENEWABLE ENERGY LTD

- Cutting edge renewable energy solutions

# About the Company

---

- SAF-AGA Renewable Energy Limited is a leading Renewable Energy Service Company (RESCO) strategically headquartered in Abuja, Nigeria, focused on harnessing solar hybrid technologies to provide sustainable, accessible, and cost-effective electricity.
- As an advocate for sustainable growth, the company is committed to delivering innovative, efficient, and environmentally responsible energy solutions to communities, industries, and businesses across Nigeria.
- Established as a Limited Liability Company under the Corporate Affairs Commission, the company prides itself on a unique blend of innovation, community service, and environmental stewardship. Saf-Aga is a member of the Renewable Energy Association of Nigeria (REAN)

# Vision

---

## **Our Vision**

- To lead Nigeria's transition to sustainable energy through access to efficient and affordable solar hybrid solutions.

## **Our Mission**

- To innovate and deploy diverse renewable energy solutions that enhance quality of life, drive economic growth, and champion environmental sustainability."

# Our Expertise and Services

Mini Grid

Energizing  
Education

Productive  
Use of Energy

Solar Home  
System

# Mini-Grid Projects

Okpokunou: 100 kWp, 706 connections

Enekorogha: 120 kWp, 490 connections

Ogriagbene: 150 kWp, 610 connections

# Traction to Date

---

Signed four PBG agreements under the NEP through our partners NXT Grid

---

20 communities engaged and ready for our next phase of development

---

Eight Isolated Mini Grids are completed and live.

---

Partnering with NEP for PUE deployment in Plateau and Bauchi States

---

Pipeline of 50 Mini Grid sites across Delta, Bayelsa, Edo, Kogi, and Niger States

---

Five Commercial and Industry pipeline at various stages of development

---

Introduction of E-mobility, Cookstoves, and PUEs to our Mini Grids

# Our Mini-Grid Project Workflow

Pictures from Mini-Grid

Execution of a Memorandum of Understanding (MOU) with the Rural Electrification Agency (REA) to enable the delivery of 150 megawatts (MW) of Distributed Renewable Energy (DRE) projects in Nigeria.

# Productive Use Equipment (PUE)

---

- Flexible repayment options for beneficiaries through our Microfinance Institution
- Partnership with the Rural Electrification Agency (REA) to subsidise PUEs for end users
  - Cold storage
  - Electric motors
  - Agro-processing machines
  - E-bikes for private and commercial uses

Our Innovative Solutions

# Site Assessment and Monitoring

---

- **Site Assessment:** Smart, data-driven decisions that lead to predictable results. We use tried-and-true methodology, satellite data, and software to confirm the site's size and financials.
- **Advanced Monitoring:** This ensures potential issues are identified and addressed promptly, reducing downtime and enhancing reliability, leading to a stable and dependable energy supply to end-users.

# Load Control and Scalability

---

- **Smart Load Control**

SAF-AGA utilizes AI, satellite weather data, and data analytics to optimize energy distribution. This technology ensures the most efficient use of the solar grid's capacity, maximizing energy output and more effectively meeting consumer demands.

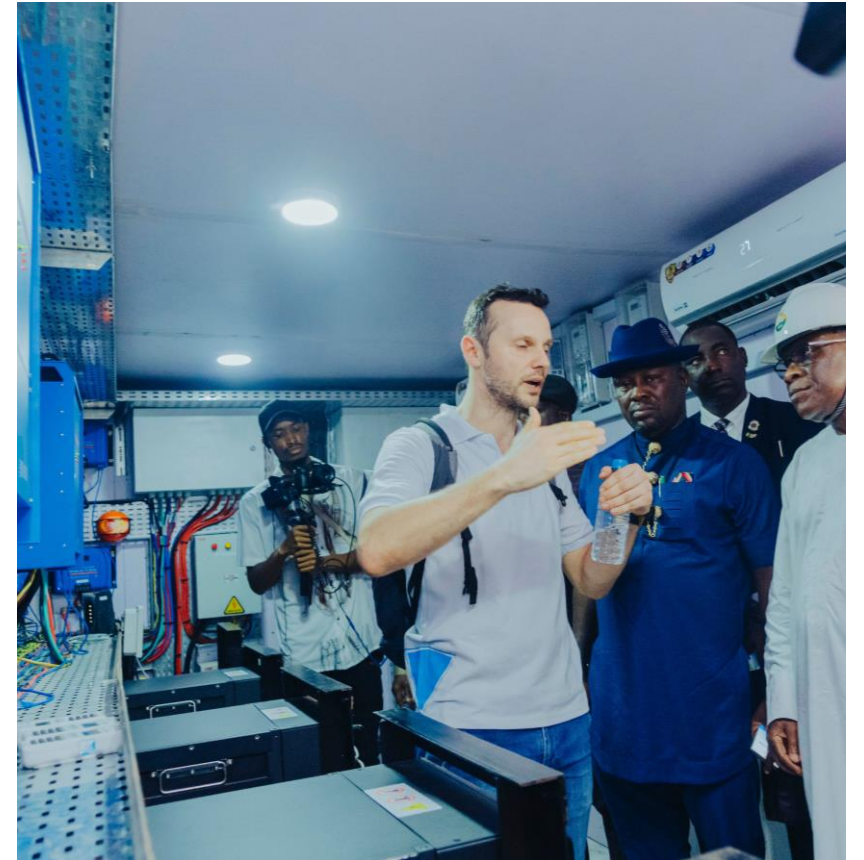

- **Scalability and Expansion**

Our Grid's expertise and infrastructure can support the expansion to more sites or larger grids, facilitating growth without the proportional increase in operational complexity.

# Why SAF-AGA is Your Ideal Partner

---

- **Community-Centric Approach:** We prioritize community engagement and empowerment in all our projects.
- **Innovation:** We leverage cutting-edge technologies like PV Coating Solutions, Graphene Battery Solutions, and Advance Energy Management Systems to maximize efficiency and impact.
- **Financial Sustainability:** We have reliable funding partners and manage projects for long-term success. Our grids operate sustainably through cost-reflective tariff.

# Competitive Advantage and Social Responsibility

---

## **Competitive Advantages**

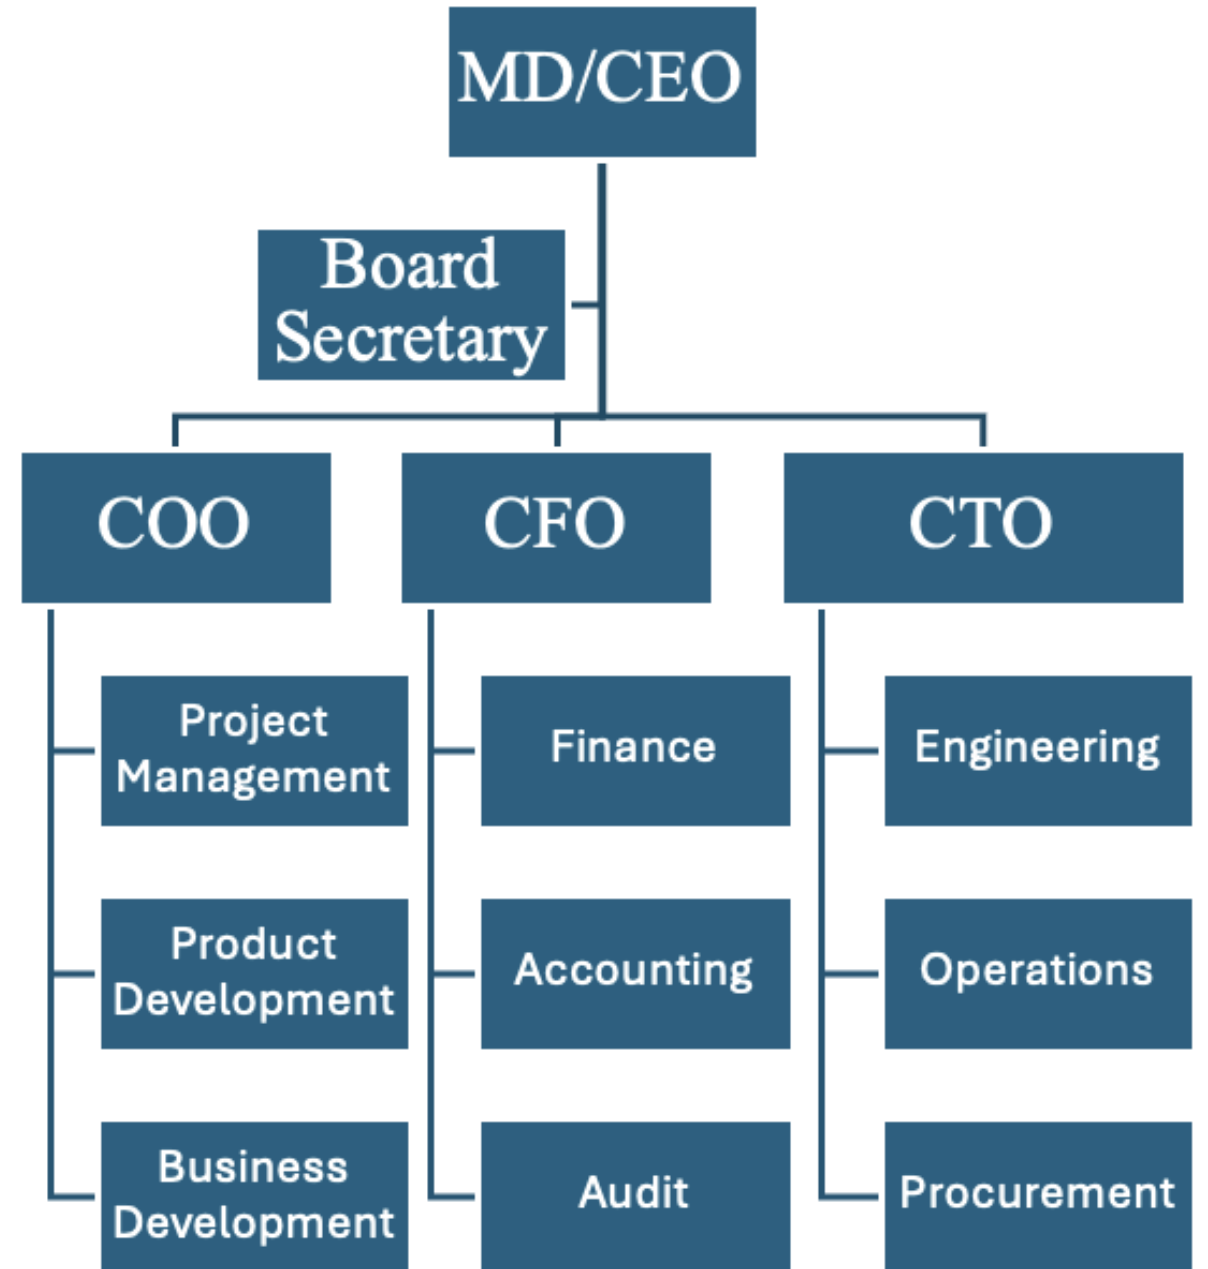

- Strong local presence and understanding of the Nigerian energy landscape.
- High-quality, durable, and cost-effective technology.
- Scalable solutions are designed to meet the specific needs of each community or client.

## **Social Responsibility and Sustainability**

- Community outreach programs aimed at educating the public about the benefits of renewable energy.
- Initiatives to train and employ local talent, contributing to community development.

# Board of Directors

<b>S/N</b>	<b>Name</b>	<b>Designation</b>	<b>Professionalism</b>	<b>Nationality</b>
1.	Chief Ann Muraina	Chairperson Board of Directors	Finance Expert	Nigeria
2.	Chief Preye Ogriki	Director	Commercial Banking	Nigeria
3.	Fosen Grace	Director	Climate Change Expert	Nigeria
4.	Donald Igudia	Director	Project Management Expert	Nigeria
5.	Anthony Agara	Executive Director	Renewable Energy Expert	Nigeria
6.	Godbless Safugha	Managing Director/CEO	Energy Policy/Community Development Expert	Nigeria

# Meet Our Team

<b>POSITION</b>	<b>NAME</b>	<b>EXPERIENCE</b>
Chief Executive Officer	Godbless Safugha	10+ years of experience in the renewable energy sector, with a proven track record in leadership, strategic planning, energy policy, and business development.
Executive Director	Chuks Agara	8+ years of experience in the energy sector and a related field, with expertise in operations management, project management, and stakeholder engagement.
Chief Engineer	Engr Augustine Ngbede Elaigwu	8+ years of experience in electrical engineering, with expertise in solar power systems, mini-grid design, and construction management.
Finance Manager	Favour Ebipade	5+ years of experience in financial management, with expertise in financial analysis, budgeting, and reporting.
Project Manager	Stephanie Wealth	10+ years of experience in project management, with demonstrated ability to manage complex projects and deliver results on time and within budget
Grid Manager	Alfred Enebe	3+ years of experience in mini grid management, with expertise in power systems operation, maintenance, and backend support system.
Technology Officer	Olayinka Obadeyi Matanmi	8+ years of experience in technology leadership, with expertise in software development, data analytics, and emerging technologies.
